

FASHION PARIS-FACULTY LED PROGRAM ~ J-TERM 2019

Meet Jordan, a Merchandise Management grad (2020!) who participated in the 2019 faculty-led program to Paris. Jordan is an Expert Stylist at Wantable!

"It's worth every penny! Money comes back, while opportunities like this don't. I'd do it all over again if I could!"

1 Why Paris?

-Why not Paris is more like it! It's been named one of the world's fashion capitals for a reason. The city has its own fashion week and is home to some of the most prestigious fashion houses around the globe.

2 Housing:

-My roommate and I shared a one-bedroom apartment complete with a full bath and kitchenette. It was rather cozy, but I didn't mind, as it gave me a true feel of what life as the average Parisian is like. The best part was the view - we were on the 5th floor!

3 How has Study Abroad Impacted You?

-As cliché as it sounds, I returned with a stronger passion for fashion. I also gained more confidence in my skills and got a better idea of what I wanted to pursue post-graduation. Career-wise, studying abroad has given me an advantage, as it's often a topic of interest when interviewing.
