

FACULTY-LED PROGRAM

"I learned not to fear the unknown."

**Sadasia (she/her)
Major: Psychology
Minor: Creative Writing
Ireland Spring 2024**

Why Ireland?

Simple, it was the only psychology course offered for a faculty-led study abroad program. But now I would say because of the people and scenery!

What Was The Biggest Cultural Difference?

Their emphasis on history. They don't try to paint over the cultural divide, instead they make sure to educate their children. It's such a cultural shock and so different from what I experienced in the US.

Most Memorable Experience?

I learned that St. Nicholas and I share a special day--December 6!

Tips For Other Students

Considering Study Abroad
Try the food! If you don't like it that's fine. And don't let anyone tell you that you can't study abroad!
