This example plan is intended to outline the number and types of courses a student might take in order to fulfill the degree, major, core and elective requirements to graduate. Students meet with their academic advisor each semester to review progress toward fulfilling their degree requirements.

# BACHELOR'S DEGREE + MASTER'S OF PUBLIC HEALTH

Mount Mary University and the Medical College of Wisconsin (MCW) have teamed up to offer a dual program allowing you to earn two degrees — a bachelor's and a Master of Public Health — in just five years.

## 4+1 program format

**Freshman, sophomore and junior year:** The student works toward an undergraduate degree at Mount Mary University during her freshman, sophomore and junior years.

**Senior year:** In her senior year, the student has dual enrollment at Mount Mary University and MCW. In the dual enrollment year, the student completes 15 credits of public health core courses that count toward both the undergraduate and graduate degree.

**Year 5:** After graduating from Mount Mary, the student continues as a graduate student at MCW for approximately one additional year until she completes the Master of Public Health program. The Master of Public Health (MPH) degree provides a 100% online learning experience and is designed for the working professional. The program has exceptional faculty with both practice and research experience and is accredited by the Council on Education for Public Health.

## Prerequisites

To assure academic success, we recommend the following prerequisite courses prior to enrollment in the MPH program:

- ENG 120 College Research Writing
- SEA 101 Search for Meaning
- Two semesters of composition
- One course in biology
- One upper level writing course (choose from COM 410, PSY 438, SOC 497)
- One course in statistics

## Eligibility

- Mount Mary University students majoring in any discipline may apply for this dual degree program in the spring semester of their junior year.
- Applications are accepted online through the Medical College of Wisconsin.
- The application fee and transcript fee are waived for program applicants.

## Admission Requirements

- Successful completion of a minimum of 96 undergraduate credits.
- Cumulative GPA: 3.3
- Three letters of recommendation
- Personal statement
- Application to the MPH program by April 1 of junior year

## SCHOLARSHIP ASSISTANCE

Did you know? 100% of incoming, full-time undergraduate students receive an academic scholarship or reduced tuition.
